

# Gyan- EMPOWERING TEACHERS

## Target Audience

Teachers (Educational Institutes)

## Project Details

Gyan enhances the quality of teaching by conducting training programs and motivating teachers. In this fast-changing world coupled with technological upgradations, teachers need to keep pace with the changing times by sharpening their teaching and technological skills at regular intervals. Maa Foundation conducts teachers' training workshops in order to improve the teaching skills of teachers and help them keep pace with the changing times.

The progress of a country depends upon the quality of its teachers, and for this reason, teaching is the noblest among all professions. Teachers are crucial elements in preparing young people not only to face the future with confidence but also to build it with purpose and accountability.

By training teachers, we aim at making them capable of conveying their knowledge most effectively and innovatively. After completing this training, participants will be able to develop new teaching strategies which enhance the interest of their students in the classrooms and encourage learning.

Teaching skills would include providing training on the different techniques, approaches and strategies that would help the teachers to plan and impart instruction, provide appropriate reinforcement and conduct an effective assessment.

The pedagogical theory includes the philosophical, sociological and psychological considerations that would enable the teachers to have a sound basis for practicing the teaching skills in the classroom.

Professional skills include the techniques, strategies and approaches that would help teachers to grow in the profession and also work towards the growth of the profession. It has soft skills, counselling skills, interpersonal skills, digital skills, information retrieving and management skills and above all, life-long learning skills.

## Project Highlights

- Teaching skills, Pedagogical theories
- Professional skills
- Knowledge enhancement

## Duration

11-20 days training (Depends on Preschool, Primary and Secondary section)

## Registration
